

PHYSICIAN REVENUE CYCLE MANAGEMENT SERVICES

ESTABLISH A HIGH-PERFORMING REVENUE CYCLE

How effective is your billing process in collecting physician revenue? Revenue cycle management encompasses many elements, including finding experienced staff, following compliance rules, improving patient satisfaction and maintaining relationships with billing vendors. Consequently, flawless management is essential. Making strategic changes to create a high-performing revenue cycle can decrease accounts receivable days and denials, while increasing clean claim rates and collection of revenue earned.

Customized Solutions

Bolder can create customized revenue cycle management solutions to maximize your organization's cash flow. We will develop, design, establish and manage each aspect of your revenue cycle, so your staff can focus on satisfying patients. Our services include scheduling, coding, claims edits and submission, electronic claims status, remittance management, denials and appeals management, accounts receivable follow up services and payor compliance.

Integrated Partnership

With a collaborative and flexible approach, our experienced staff reduces the overall cost to collect on services provided by your organization. Whether completely outsourced or narrowly focused on specific revenue cycle aspects, we seamlessly integrate with your team and current revenue cycles.
