

## **BOLDER PHYSICIAN SERVICES FOR SURGERY**

### **INCREASE PROFITABILITY**

Getting paid correctly and on time is becoming increasingly difficult. Among the many challenges physician groups face are changing government regulations, incorrect coding and difficulty finding employees with surgery billing experience and the sheer amount of time spent submitting and tracking appeals. These complex issues keep you from increasing your revenue margin.

#### **We can help.**

Bolder Physician Services simplifies the complexity of your surgery billing and revenue cycle management process by either utilizing our robust SaaS platform CONNECT or utilizing your in-house platform with our dedicated, knowledgeable billing professionals. We consistently handle your critical back office tasks, which enables you to focus on your patients. This includes complete review of surgical records to identify all potential reimbursable events and aggressive pursuit of payers to optimize out-of-network benefits. We also manage billing details and offer performance reporting to monitor your business and profitability.

#### **The right solution. Experienced people. Patient satisfaction.**

We provide comprehensive revenue cycle management (RCM) services for surgery billing, ranging from coding to AR follow-up services to maximize revenue, improve patient experience and minimize practice disruption. Our team is available to support you with a comprehensive solution or specific areas of need such as; coding, A/R management, denial management and appeals.
